

HELIX_OTA_CONSTITUTION

Helix OTA Constitution

This constitution **extends** the Helix Universal Constitution at `constitution/Constitution.md`. All clauses there apply unless explicitly overridden below with an explicit `Override §X.Y` section.

Project Articles

§101. Native-A/B safety floor

The Android update path **MUST** preserve native A/B + AVB/dm-verity + automatic rollback semantics. The control plane **MAY** orchestrate, gate, and observe updates but **MUST NOT** bypass the device's slot-verification and auto-rollback guarantees.

§102. Signature trust boundary

The artifact-signature verification key is sourced **EXCLUSIVELY** from server configuration. A request-supplied verification key is **NEVER** trusted (it would defeat signature verification). See `server/internal/api/handlers_artifact.go`.

§103. Reuse-first, decouple-hard

Capabilities are built as independently reusable submodule bricks with their own tests + docs, decoupled enough to be reused by future projects. New bricks get **PUBLIC** repos under `HelixDevelopment / vasic-digital`.

§104. Forward-OS roadmap preserved

Planning leaves explicit room for post-Android expansion (Linux, then Windows, then other OSes and their flavors) under versioned `1.X.X-<name>` directories; multi-standard support per OS is mandatory where multiple standards exist.

Overrides of Universal Constitution

(none — this project overrides no universal clause)

Owned-submodule set

(per Universal §4 — submodules this project owns and tags)

submodules/ota-protocol
submodules/ota-telemetry-schema
submodules/ota-artifact-validator
submodules/ota-rollout-engine
submodules/ota-update-engine-bridge
submodules/ota-android-agent

constitution/ (HelixConstitution) is consumed, not owned-for-edit here.
containers/ is a shared vasic-digital brick consumed by this project.

Project-specific remotes

Repo	Remotes
Main (helix_ota)	github, gitlab, gitflic, gitverse (origin fans out to all four)
Owned ota-* submodules	github + gitlab (PUBLIC), GitFlic/ GitVerse mirrors per §4
